

*Jane Britton – Girls' Coordinator, Independent School*

*Paula's work with both the girls and boys at our school has been enormously beneficial. Her expertise and professionalism in broaching difficult and personal issues with the students, with sensitivity, was a real benefit to me in my pastoral care role with girls.*

*In her presentations to the students, and in collecting evidence from them, Paula was able to identify at risk students and provide advice in following up these students.*

*Each year as the [Dove Body Think] program came to our school the students were so excited to have Paula here to help them talk through their issues and seek advice from her. Her ease in building rapport with students, and her realism about life for the students, she worked with has made the program a real success.*
